

HEALTHY ALLIANCE IPA

COMMUNITY SOLUTIONS FOR BETTER HEALTH

Healthy Alliance Independent Practice Association is one of the first IPAs of its kind focused specifically on addressing social determinants of health (SDoH). Healthy Alliance IPA is a high-performing, regionally shared network of organizations providing social care services currently not billable to Medicaid that, collectively, will transition to value-based care through data-driven performance measurement, improved coordination and communication, and execution of risk-sharing contracts with health plans. At Healthy Alliance IPA's foundation is a company-wide belief that investing in social needs, before they turn into costly medical problems, creates **better health for all.**
