

HEALTHY TOGETHER FAQ

What is Healthy Together?

- A state-of-the-art referral management program that simplifies and streamlines social determinants of health-focused referrals between medical, behavioral, and social care providers to improve health.

What is the difference between Healthy Together and Unite Us?

- Healthy Together is Alliance for Better Health's locally branded referral network, powered by the technology platform, Unite Us.

What are the goals of Healthy Together?

- Ensure no client falls through the cracks
- Put network participants in a strategic position to prove cost savings to funders
- Demonstrate and quantify the value partnering organizations bring to the community
- Shine a light on the benefits of a data-driven, holistic client-centric approach to health equity

What is the value to our partners and the communities we serve?

Builds connections within and across our community to improve the health of those most in need.

No financial cost to join.

Any client-facing staff can be trained to administer the referral.

Services include food pantries, health care and hospital systems, mental and behavioral health, shelter and housing amenities, transportation and clothing.

No extensive client notes in Healthy Together; this is an extension of the client's EHR; easy to use with minimal documentation.

HIPAA compliant platform; only certain agencies have access to view the information.
