

HEALTHY TOGETHER COMMUNITY REFERRAL PROGRAM

Healthy Together, a state-of-the-art referral management platform powered by Unite Us, simplifies and streamlines social determinants of health-focused referrals between medical, behavioral, and social care providers to improve health. Participating organizations gain access to a full-spectrum view of the clients they serve, making it easier to determine when, and for whom, services were provided at **no cost** to your organization. This program cultivates true collaboration among community partners, while putting network participants into a strategic position to prove cost savings to funders, demonstrate and quantify value, and shine a light on the benefits of a data-driven, holistic client-centric approach to health equity.
